

# Club Opening

## POLICIES AND PROCEDURES

### Phase 3

1. Any club member wishing to sail must arrive in the correct clothing to do so, or bring own "changing cubicle" (towel/shelter) to be used outside.
2. There will be no access to:
  1. Safety cover during activities on the water.
  2. Engine shed
3. The club house will only be accessible for toilet use. There will be one toilet available in the ladies changing rooms (as this must be accessible for the electric supply). The changing room must not be used for changing. All other areas of the club house are taped off, and not to be used
4. Use of club boats is available via an on-line booking system. Boats can be allocated for up to a week (the boat number and lock number will be provided upon booking). Boats must be re-locked every evening and not lent to other members. Sails and a masthead float (optional use, but available as there is no safety cover) will be in a numbered bag allocated to the boat. These will be kept in the Race Hut. **Masthead floats must not be inflated by mouth** (a foot pump is provided to reduce contamination risk). Boats will be quarantined for 72 hours and the lock number changed before re-allocation.
5. Those in the compound must ensure they are following the guidance set out by the government.
6. Wipes are available at entrance to club house and hand sanitiser and hand wipes are available at the basin in the toilet.
7. Members are required to provide their own food and drink, although outside water tap is in use to top up bottles.
8. A First aid box and defib will be stored in the Disable Toilet, if this is used it must be reported to the Commodore immediately at [commodoreaylesburysailingclub@gmail.com](mailto:commodoreaylesburysailingclub@gmail.com)
9. Members will be given access to the water but are encouraged to err on the side of caution in relation to sailing ability and wind conditions. This is to reduce the chance-of having to call the emergency services-
10. If a club member, or someone in their close family, show signs/symptoms of covid-19 they must refrain from entering the club for a minimum of 14 days.
11. In the unlikely case that members have been exposed to covid-19 while at the club, we recommend that members follow the government guidelines and to report this immediately to the Commodore at [commodoreaylesburysailingclub@gmail.com](mailto:commodoreaylesburysailingclub@gmail.com) -
12. Club policies will be reviewed on a weekly basis and adjusted as needed.
13. Any failure to follow the guidelines set out will result in the closure of the club to all members.
